INDEX

ACETYLCHOLINE, mechanism of action of on Venus heart, 48.
Adrenal preparations, effect of on tumor growth, 226.
Agglutination of fish and turtle erythrocytes by viruses, 149.
Alkaline phosphatase in mollusc mantles, 9.
Ammonia production (anaerobic) by amphibian gastrulae explants, 22.
Amoeba, oxygen consumption in single specimens of, 178.
Amphibian, anaerobic ammonia production by gastrulae explants of, 22.
ANDERSON, JOHN MAXWELL. Sexual reproduction without cross-copulation in the fresh water triclad Turbellarian, Curtisia foremanii, 1.
Anodonta grandis, calcification of shell in, 9.
Assimilation of iron by marine diatoms, 243.
Attachment fibers and blastomere positions in sea urchin larvae, 58.

BEEF pituitary, effects of on water retention by frogs, 25.
BEVELANDER, GERRIT. Calcification in molluscs. III. Intake and deposition of Ca^{45} and P^{32} in relation to shell formation, 9.
Biology of the luminous millipede, Luminodesmus sequoiae, 100.
Blastomeres, means of fixation of mutual positions of, in sea urchin larvae, 58.
Blastula stage, cyto-embryological studies of, in sea urchins, 74.
Blowfly, relation between olfactory response and receptor population in, 111.
BODINE, JOSEPH HALL, KIAO-HUNG LU AND WILLIAM L. WEST. Reduction of triphenyltetrazolium chloride by mitotically active and blocked embryonic cells, 16.
BOETTIGER, EDWARD G., AND EDWIN FURSHPAN. The mechanics of flight movements in Diptera, 200.
BONNER, JOHN TYLER. *See* MIRIAM K. SLIFKIN, 273.
Brood production in Lebistes, 30.
BROWN, FRANCES C. *See* DIETRICH C. SMITH, 278.
BROWN, FRANK A., JR., MARGARET N. HINES AND MILTON FINGERMAN. Hormonal regulation of the distal retinal pigment of Palaemonetes, 212.
BROWNELL, K. A., I. MOORE AND SR. FRANCIS JEROME. Effect of adrenal preparations on tumor growth, 226.
Busycon canaliculatus, mucus formation and secretion in, 252.
Bresslaua insidiatrix, oxygen consumption of single specimens of, 178.

Ca^{45}, intake and deposition of, in relation to shell formation in molluscs, 9.
Calcification in molluscs. III. Intake and deposition of Ca^{45} and P^{32} in relation to shell formation, 9.
Cell division, oxygen consumption during, 185.
Chaos chaos, oxygen consumption in single specimens of, 178.
CLAFF, C. L. *See* P. F. SCHOLANDER, 157, 178, 185.
Clava leptostyla, regeneration in isolated and fused pieces of, 141.
Clypeaster japonicus, means of fixation of blastomere positions in larvae of, 58.
COHEN, ADOLPH I. Studies on the pigmentation changes during reconstitution in Tubularia, 91.
Comparative effects of fish and beef pituitary on retention of water by frogs, 25.
Crassostrea virginica, digestion and absorption of fat in, 118.
Curtisia foremanii, sexual reproduction without cross-copulation in, 1.
CUSHING, JOHN E. *See* DEMOREST DAVENPORT, 100.
Cyanide in a luminous millipede, 100.
Cyclical production of ova in Lebistes, 30.
Cyto-embryological studies of sea urchins. I. The means of fixation of the mutual positions among the blastomeres of sea urchin larvae, 58.
Cyto-embryological studies of sea urchins. II. Blastula stage, 74.
Cytological studies on mucus formation and secretion in Busycon, 252.

DALES, R. PHILLIPS. The larval development and ecology of Thoracophelia mucronata (Treadwell), 232.

DAN, KATSUMA, AND TOMONAO ONO. Cyto-embryological studies of sea urchins. I. The means of fixation of the mutual positions among the blastomeres of sea urchin larvae, 58.
DAN, KATSUMA. Cyto-embryological studies of sea urchins. II. Blastula stage, 74.
DAVENPORT, DEMOREST, DONALD M. WOOTTON AND JOHN E. CUSHING. The biology of the Sierra luminous millipede, Luminodesmus sequoiae, Loomis and Davenport, 100.
DETHIER, V. G. The relation between ofactory response and receptor population in the blowfly, 111.
Development of Luminodesmus sequoiae, 100.
Development of Thoracophelia mucronata, 232.
Diatoms, marine, iron assimilation by, 243.
Dictyostelium discoideum, effect of salts and organic solutes on migration time of, 273
Digestion and absorption of fat in lamelli-branchs, 118.
Diptera, mechanics of flight movements in, 200.

ECOLOGY of Luminodesmus, 100.
Ecology of Thoracophelia, 232.
Effect of adrenal preparations on tumor growth, 226.
Effect of ingested radiophosphorus on egg production and embryo survival in the wasp, Habrobracon, 128.
Effect of parrot fish thyroid extract on the respiratory metabolism of the white rat, 278.
Effect of salts and organic solutes on migration time of the slime mold Dictyostelium, 273.
Effects of fish and beef pituitary on water retention by frogs, 25.
Effects of nerve section on the intercerebralis-cardiacum-allatum system of the insect, 261.
Egg production, effect of ingested P^{32} on, in Habrobracon, 128.
Electrocardiogram of Venus, 48
Embryo survival, effect of ingested P^{32} on, in Habrobracon, 128.
Embryonic cells, reduction of T.T.C. by, in grasshopper, 16.
Erythrocytes, agglutination of by viruses, 149.
Excystment and encystment, respiration during, in Bresslaua, 178.
Explants, amphibian gastrulae, anaerobic ammonia production by, 22.

FAT, digestion and absorption of, in lamellibranchs, 118.
FINGERMAN, MILTON. *See* FRANK A. BROWN, JR., 212.
Fish erythrocytes, agglutination of, by viruses, 149.
Fish pituitary, effects of on water retention by frogs, 25.
Flight movements, mechanics of, in Diptera, 200.
Frogs, effects of fish and beef pituitary on water retention by, 25.
FURSHPAN, EDWIN. *See* EDWARD G. BOETTIGER, 200.

GASTRULAE, anaerobic ammonia production in explants of, 22.
GEORGE, W. C. The digestion and absorption of fat in lamellibranchs, 118.
GOLDBERG, EDWARD D. Iron assimilation by marine diatoms, 243.
Grasshopper embryonic cells, reduction of T.T.C. by, 16.
GREGG, JOHN R., AND NORMA ORNSTEIN. Anaerobic ammonia production by amphibian gastrulae explants, 22.
GROSCH, DANIEL S., AND ROBERT L. SULLIVAN. The effect of ingested radiophosphorus on egg production and embryo survival in the wasp Habrobracon, 128.

HABROBRACON, effect of ingested P^{32} on egg production and embryo survival in, 128.
Haemal vessels, pharmacology of, in Stichopus, 249.
Heliocidaris crassispina, studies on blastula stage of, 74.
HINES, MARGARET N. *See* FRANK A. BROWN, JR., 212.
Histochemistry of shell formation in molluscs, 9.
Hormonal regulation of the distal retinal pigment of Palaemonetes, 212.
Hyaline layer, accumulation of fluid under, in sea urchin eggs, 74.
Hyaline layer, role of in fixation of position of blastomeres in sea urchin larvae, 58.
Hydranth formation, pigmentation at site of, in Tubularia, 91.

INSECT, effects of nerve section on intercerebralis-cardiacum-allatum system of, 261.
Intake and deposition of Ca^{45} and P^{32} in relation to shell formation in molluscs, 9.
Intercerebralis-cardiacum-allatum system, effects of nerve section on, in the insect, 261.
Iron assimilation by marine diatoms, 243.

JEROME, SR. FRANCIS. *See* K. A. BROWNELL, 226.
JUDSON, CHARLES L. *See* C. LADD PROSSER, 249.

KEMP, NORMAN E. Regeneration in isolated and fused pieces of Clava leptostyla, 141.

LAMELLIBRANCHS, digestion and absorption of fat in, 118.
Larval development and ecology of Thoracophelia mucronata, 232.
LAZO-WASEM, EDGAR A., AND GEORGE F. WEISEL. The comparative effects of fish and beef pituitary on retention of water by frogs, 25.
Lebistes reticulatus, reproduction of, 30.
Leucophaea maderae, effects of nerve section on intercerebralis-cardiacum-allatum system of, 261.
LU, KIAO-HUNG. *See* JOSEPH HALL BODINE, 16.
Luminodesmus sequoiae, biology of, 100.
Luminous millipede, biology of, 100.

MARINE diatoms, iron assimilation by, 243.
Mechanics of flight movements in Diptera, 200.
Mechanism of action of acetylcholine on the Venus heart, 48.
Melanoplus differentialis, reduction of T.T.C. by embryonic cells of, 16.
Mespilia globulus, means of fixation of blastomere positions in larvae of, 58.
Mespilia globulus, studies on blastula stage of, 74.
Methods for respiratory studies of single cells, 157.
Mice, effect of adrenal preparations on tumor growth in, 226.
Migration time, effect of salts and organic solutes on, in the slime mold, 273.
Millipede, biology of, 100.
Mitosis, oxygen consumption during, in single cells, 185.
Modiolus demissus, digestion and absorption of fat in, 118.
Molluscs, calcification in, 9.
Molluscs, digestion and absorption of fat in, 118.
Molluscs, mucus formation and secretion in, 252.
MOORE, I. *See* K. A. BROWNELL, 226.
Mucus formation and secretion, cytological studies on, in Busycon, 252.
Mustelus canis, agglutination of erythrocytes of, by viruses, 149.

NEUROSECRETION. XI. The effects of nerve section on the intercerebralis-cardiacum-allatum system of the insect, Leucophaea maderae, 261.

OBSERVATIONS on reproduction of the poeciliid Lebistes reticulatus, 30.
Olfactory response and receptor population in the blowfly, 111.
Oncorhynchus nerka, effects of pituitary of, on water retention by frogs, 25.
ONO, TOMONAO. *See* KATSUMA DAN, 58.
Organic solutes, effect of on migration time of slime mold, 273.
ORNSTEIN, NORMA. *See* JOHN R. GREGG, 22.
Ova, oxygen consumption during division of, 185.
Oxygen consumption during cell division, 185.
Oxygen consumption in single protozoans, 178.

P^{32}, effect of on egg production and embryo suvival in Habrobracon, 128.
P^{32}, intake and deposition of in relation to shell formation in molluscs, 9.
Palaemonetes, hormonal regulation of distal retinal pigment of, 212.
Paramecium, oxygen consumption in single specimens of, 178.
Parrot fish thyroid extract, effect of on respiratory metabolism of white rat, 278.
Permeability changes in sea urchin blastula wall after hatching, 74.
Pharmacology of haemal vessels of Stichopus californicus, 249.
Phormia regina, relation between olfactory response and receptor population in, 111.
Pigment, distal retinal, hormonal regulation of in Palaemonetes, 212.
Pigmentation changes during reconstitution in Tubularia, 91.
Pinna, calcification of shell in, 9.
Platysamia cecropia, tyrosinase and respiration of pupae of, 39.
Poeciliid, observations on reproduction in, 30.
Prionotus carolinus, agglutination of erythrocytes of by viruses, 149.
PROSSER, C. LADD, AND CHARLES L. JUDSON. Pharmacology of haemal vessels of Stichopus californicus, 249.
Protozoans, oxygen consumption in single, 178.
Pseudomys elegans, agglutination of erythrocytes of by viruses, 149.
Pupae, respiration of, and tyrosinase, 39.

RADIO-isotopes, use of in study of shell formation in molluscs, 9.
Radiophosphorus, effect of on egg production and embryo survival in Habrobracon, 128.
Radio-resistance of Habrobracon, 128.
Rana pipiens, anaerobic ammonia production by gastrulae explants of, 22.
Rana pipiens, effects of fish and beef pituitary on water retention by, 25.

Rat, effect of parrot fish thyroid extract on respiratory metabolism of, 278.
Receptor population and olfactory response in the blowfly, 111.
Reconstitution in Tubularia, pigmentation changes during, 91.
Reduction of T.T.C. by mitotically active and blocked embryonic cells, 16.
Reference diver technique, 157, 178, 185.
Regeneration in isolated and fused pieces of Clava leptostyla, 141.
Relation between olfactory response and receptor population in the blowfly, 111.
Reproduction of Lebistes, 30.
Reproduction without cross-copulation in Curtisia, 1.
Respiration of Platysamia pupae, 39.
Respiratory metabolism, effect of parrot fish thyroid extract on, in the white rat, 278.
Respiratory studies of single cells. I. Methods, 157.
Respiratory studies of single cells. II. Observations on the oxygen consumption in single protozoans, 178.
Respiratory studies of single cells. III. Oxygen consumption during cell division, 185.
Retention of water by frogs, effects of fish and beef pituitary on, 25.
Retinal pigment, hormonal regulation of, in Palaemonetes, 212.
RONKIN, R. R. Cytological studies on mucus formation and secretion in Busycon, 252.
ROSENTHAL, HAROLD. Observations on reproduction of the poeciliid Lebistes reticulatus (Peters), 30.

SALTS, effect of on migration time of slime mold, 273.
SCHARRER, BERTA. Neurosecretion. XI. The effects of nerve section on the intercerebralis-cardiacum-allatum system of the insect, Leucophaea maderae, 261.
SCHOLANDER, P. F., C. L. CLAFF AND S. L. SVEINSSON. Respiratory studies of single cells. I. Methods, 157.
SCHOLANDER, P. F., C. L. CLAFF AND S. L. SVEINSSON. Respiratory studies of single cells. II. Observations on the oxygen consumption in single protozoans, 178.
SCHOLANDER, P. F., C. L. CLAFF, S. L. SVEINSSON AND SUSAN I. SCHOLANDER. Respiratory studies of single cells. III. Oxygen consumption during cell division, 185.
SCHOLANDER, SUSAN I. *See* P. F. SCHOLANDER, 185.
Scomber scombrus, agglutination of erythocytes of by viruses, 149.
Sea urchin, cyto-embryological studies of, 58, 74.
Secretion, mucus, cytological studies on, in Busycon, 252.
Sexual reproduction without cross-copulation in Curtisia, 1.
Shell formation in molluscs, 9.
Single cells, methods for respiratory studies of, 157.
Single protozoans, oxygen consumption in, 178.
Size, relation of to oxygen consumption in protozoans, 178.
SLIFKIN, MIRIAM, AND JOHN TYLER BONNER. The effect of salts and organic solutes on the migration time of the slime mold Dictyostelium discoideum, 273.
Slime mold, effect of salts and organic solutes on migration time of, 273.
SLOCOMBE, ALAN G. *See* JOHN H. WELSH, 48.
SMITH, DIETRICH C., AND FRANCES C. BROWN. The effect of parrot fish thyroid extract on the respiratory metabolism of the white rat, 278.
Sphyraena argentia, effects of pituitary of, on water retention by frogs, 25.
Stichopus californicus, pharmacology of haemal vessels of, 249.
Strongylocentrotus pulcherrimus, means of fixation of blastomere positions in larvae of, 58.
Strongylocentrotus pulcherrimus, studies on blastula stage of, 74.
Studies on the pigmentation changes during reconstitution in Tubularia, 91.
SULLIVAN, ROBERT L. *See* DANIEL S. GROSCH, 128.
SUSSMAN, ALFRED S. Tyrosinase and the respiration of pupae of Platysamia cecropia L., 39.
